

Monday 5 June 2017 Griffith University, Southbank Campus

Introduction

The ARMS QLD/NT/PNG Chapter is organising a stimulating and practical professional development workshop for 2017.

Join us on Monday 5 June 2017 to hear from leaders in research management on a variety of topics. Representatives from the State and Commonwealth governments will present the latest developments on Advance Queensland and on the structural review of the NHMRC's grant program. Panel sessions will provide the opportunity for attendees to understand research ethics from both a university and non-university perspective as well as hear from research office Directors on career development and pathways, challenges facing the sector and innovation in the workplace. As always, the Workshop will provide a great opportunity to network with colleagues in the region and learn through others via shared experiences.
